

JOB DESCRIPTION

Human Resources (HR) Executive

Role Summary

We are looking for a dedicated HR Executive to manage our company’s recruiting, learning and development, and employee performance programs. The successful candidate will be responsible for the full lifecycle of employee management, from sourcing and hiring to onboarding and maintaining a healthy work environment.

Key Responsibilities

Recruitment & Talent Acquisition

- Liaising with department managers to understand hiring needs and creating detailed job descriptions.
- Sourcing potential candidates through various channels (e.g. social platforms and professional networks).
- Screening resumes, conducting initial interviews, and coordinating final interviews with hiring managers.
- Managing the offer process and ensuring a smooth transition for new hires.

Employee Onboarding & Relations

- Conducting orientation programs and briefings for new employees.
- Acting as the primary point of contact for employee queries regarding HR policies and procedures.
- Organizing team-building activities and engagement initiatives to foster a positive company culture.
- Assisting in the resolution of employee grievances and disciplinary actions.

Operations & Administration

- Maintaining digital and paper records of employees (e.g., contracts, personal details, attendance).
- Assisting in payroll processing and benefits administration.
- Conducting performance review cycles and tracking employee KPIs.
- Ensuring compliance with local labor laws and internal regulations.

Required Skills & Competencies

TECHNICAL

- Proficiency in Applicant Tracking Systems (ATS).
- Experience with HRIS (Human Resources Information Systems).
- Knowledge of MS Office (especially Excel and PowerPoint)

SOFT SKILLS

- Exceptional communication and interpersonal skills.
- Strong organizational and time management abilities.
- Conflict resolution and negotiation skills.

Qualifications & Experience

- **Education:** Bachelor’s degree in Human Resources Management, Business Administration, or a related field.
- **Experience:** 2-4 years of experience as an HR Executive, HR Assistant, or in a similar role.
- **Certification:** Professional certifications (e.g., SHRM-CP, PHR) are highly desirable.
- **Legal Knowledge:** Solid understanding of labor legislation and employment laws.

JOB DESCRIPTION

SOFTWARE DEVELOPER

Role Summary

We are looking for a passionate and skilled Software Developer to join our core engineering team. In this role, you will be responsible for designing, developing, and maintaining high-quality software solutions that solve complex problems. You will work closely with cross-functional teams, including product managers and UI/UX designers, to translate requirements into scalable, robust, and user-centric applications.

Key Responsibilities

- **Full Lifecycle Development:** Design, code, test, and deploy software applications across the full development stack.
- **System Architecture:** Participate in architectural discussions and contribute to the design of scalable backend systems and responsive frontend interfaces.
- **Code Quality:** Write clean, maintainable, and efficient code while adhering to industry best practices and internal coding standards.
- **Collaboration:** Work closely with product owners to understand business requirements and translate them into technical specifications.
- **Testing & Debugging:** Perform thorough unit testing and debugging to ensure application stability and performance.
- **Maintenance & Support:** Monitor application performance, troubleshoot production issues, and implement necessary updates or bug fixes.
- **Continuous Improvement:** Stay updated with emerging technologies and suggest improvements to existing tools and processes.

Qualifications & Experience

- **Education:** Bachelor's or Master's degree in Computer Science, Software Engineering, or a related technical field.
- **Experience:** 2-5 years of professional software development experience (open to various levels depending on specific project needs).
- **Problem Solving:** Proven ability to analyze complex problems and provide creative, efficient technical solutions.

Technical Skills (Required)

- **Programming Languages:** Proficiency in at least one major language such as Java, Python, C#, or JavaScript (Node.js).
- **Web Technologies:** Strong understanding of HTML5, CSS3, and modern frontend frameworks (e.g., React, Angular, or Vue).
- **Databases:** Experience with relational databases (e.g., PostgreSQL, MySQL) and NoSQL solutions (e.g., MongoDB).
- **Version Control:** Advanced knowledge of Git and collaborative workflows (GitHub/GitLab).
- **API Development:** Experience building and consuming RESTful APIs or GraphQL.

Soft Skills & Competencies

- Excellent communication skills, both written and verbal.
- Ability to thrive in a fast-paced, Agile/Scrum environment.
- Strong attention to detail and a commitment to quality.
- Collaborative mindset with a willingness to mentor junior developers.
